

REMARKS

In the claims

In the amendment filed on June 1, 2007, amendments to claim 8 included the recitation of "guiding the airflow to a predetermined side of the air guiding member." On further review of the specification, Applicant discovered that this recitation should read "guiding the airflow to a *peripheral* side of the air guiding member." Accordingly, claim 8 is amended to recite "guiding the airflow to a *peripheral* side of the air guiding member."

This amendment is supported by Figures 9 and 10, and in the second full paragraph on page 8 of the original specification.

Applicant notes that, in the remarks of the amendment filed on June 1, 2007, references to the "predetermined side" should read "peripheral side."

If any issues remain that may be resolved by a telephone or facsimile communication with the Applicant's attorney, the Examiner is invited to contact the undersigned at the numbers shown.
